Youth Policy Introduction

Young people make up a substantial part of the LTB.

The purpose of this policy is to help recognize the importance of youth and help plan for their development through LTB. Their skills and experience will be utilized in the band, benefiting the individuals concerned and the local community.

The policy describes the role of the people involved in the band, to ensure that the youth are recognized, supported and involved in decisions that affect them.

The term 'youth' and 'young people' are taken to cover the broad age range of 5 to 21yrs.

- Children 5-10yrs
- Adolescents 11-15yrs
- Young adults 16-21yrs

The majority of members in the Starter Group & Training Band range between 5 and 21 years

Policy Statements

Young people have a key role to play in the band.

Young people have contributed to the subsistence of the band and are in an ideal position to identify the needs of other young people within the band and the community. They add credibility to the band's decisions and with many 'youth' groups in the community.

Young people have a role in the management of the band

When fully involved in decision-making and management, young people bring not only their own experiences but also the creativity and ideas of youth, which complement the maturity of other members.

Current youth representative:

Lysander Waring

Young people of today will lead the band of tomorrow

When young people work side by side with older members, they acquire skills which will enable them to lead the band of the future and to learn 'life skills' for work in the community and our modern society.
